## **5-DAY ON-CAMERA BOOT CAMP FOR CHILDREN AND TEENS (Summer)**

### **Introductory to Professional level for ages 7-17 (limited number)**

Four to five hours depending on class size

This course builds and strengthens all the techniques and principles explored in J. Eddie's 6-hour acting intensive workshop. Emphasis is placed on personalizing acting choices and techniques. After taking this class students will be proficient at breaking down scripts and audition copy and should feel more confident about their auditioning skills. Students will strengthen their ability to: Perfect their slate, breakdown auditions, make concrete acting "choices", create on the spot opening beats and understand beat changes, how to "own" their auditions and impress casting directors. The last 15 minutes of class, parents are invited to watch their child's progress and on-camera performance.

Thank you for your interest, we hope to see you soon.
